Clinical Audit

for Improvement

Tuesday 8 March 2016 Hallam Conference Centre, London

Through a series of national updates, practical case studies, masterclasses and poster presentations, this Healthcare Conferences UK one day conference brings together an exceptional gathering of leading practitioners, clinicians, policy makers and academics to set out the major developments, promote innovative areas of clinical audit, and debate the key challenges affecting you and your clinical audit practice.

The conference focuses on clinical audit for improvement with a particular focus on the development of effective local clinical audit leading to audit recommendations that change practice and improve patient care. Following the joint introductory session the conference programme splits into a series of focus issues providing delegates with the opportunity to hear from and question a variety of clinical audit leads, clinicians and managers on issues such as using clinical audit to monitor performance – the CQC perspective, addressing co-morbidity in national and local audit – moving from disease specific audit, delivering an effective local clinical audit programme, ensuring implementation of audit recommendations, using clinical audit findings to change commissioning practice, reporting audit findings and engaging clinicians in clinical audit.

In depth interactive masterclasses will this year focus on critical success factors in ensuring clinical audit leads to change, and a second masterclass updating delegates on national clinical audit developments.

The conference aims to empower clinicians and clinical audit leads to demonstrate to your trust board the importance of clinical audit. Clinical audit and clinical audit skills have a vital place in the centre of quality improvement and improving outcomes for patients. The aim of the conference is to ensure that audit is impacting on patient outcomes at a local level and answers the questions that trust boards are asking.

Jen Knight

Clinical Audit Manager Berkshire and South Central Lead

NQICAN

- engaging clinicians in clinical audit: what works?
- ensuring clinically led change as a result of clinical audit recommendations
- where does accountability for change lie?

15.20 Questions and answers followed by coffee and exhibition at 15.30

Masterclass Options:

11.45 Clinical Audit in 2016: have we met Liam’s reinvigoration challenge?

Facilitated by the Clinical Audit Support Centre (CASC)

Stephen Ashmore *Director*

& Tracy Ruthven *Director*

Clinical Audit Support Centre

In 2006/7 the then NHS Chief Medical Officer, Sir Liam Donaldson published a number of reports reviewing the delivery of clinical audit that culminated in his challenge to reinvigorate clinical audit both nationally and locally. Using data from their annual clinical audit survey and extensive research, the Directors from the CASC will provide a factual overview of whether this challenge has been met. Stephen and Tracy will also use their 20 years experience working in clinical audit inside and out of the NHS to recommend how further progress can be made to enable clinical audit to attain its true potential.

13.15 Questions and answers followed by lunch and exhibition

14.00 EXTENDED INTERACTIVE SESSION: Consultant Outcomes Publication: 2015/16 review and plans for 2016/17

Dr Kieran Mullan

Clinical lead for Outcomes Publication

Healthcare Quality Improvement Partnership (HQIP)

15.20 Questions and answers followed by coffee and exhibition at 15.30

Poster Displays

Anaesthetist-led Education To Support NICE Guidelines On IV Fluid Prescribing - Improving Patient Outcomes

S Gleeson, *ST7 Anaesthesia, Aintree University Hospital NHS Foundation Trust Liverpool*
