

## ANNUAL REPORT

### Name of Regional Network

East of England Clinical Audit & NICE Network (EECANN)

### Regional Network Chair:

Miss Sarah Powell, Deputy Clinical Governance Manager

### Successes:

- Practical advice on approaches to quality improvement – process mapping workshop
- Engaged members willing to share good practice and seek improvement/learning from others
- Joint Clinical Audit & NICE Network works very well with attendance from the Regional NICE Implementation Manager
- Interactive workshop - Developing (or revising) local NICE processes
- Using NICE guidance and Quality Standards in provider organisations
- How community Trusts manage Clinical Audit
- Feedback on Organisations who have had CQC inspection
- Over 30 NHS and private healthcare organisations are now members of the Network

### Lessons Learnt:

- East of England geographically challenging for all members to be released to attend due to distance. Organisations hosting events can improve attendance and give greater ownership of the meetings

### Future Direction:

- Continue to share best practice between organisations
- Better engagement with Clinical Commissioning Groups and their expectations in relation to local clinical audit
- Could the network pursue regional joint clinical audits?
- Consider videoing meeting for those unable to attend.
