

ANNUAL REPORT

Name of Regional Network: North London Clinical Audit Network [NLCAN]

Regional Network Chair: Sairatha Nimalathevan

Successes

- **Opportunity:** This Network has given the opportunity for the local and National partners to share their service profile which has created a supportive educational resource for our North London Region
- **National Representatives:** Having a variety of speakers throughout the year including our key partners [NICE, NCEPOD, UCLP] has been great resource for our Network as this provides our network members with a future direction in the National agenda and members often feedback that they found the meeting effective.
- **Secured a Location.** North London Clinical Audit Network meetings are held at a permanent location that is central for all members. The meeting is held at 250 Euston Road, London. And occurs on a quarterly basis.
- **Solutions identified:** Opportunity to find solution [where possible] to some of the queries received from Network members.
- **Representation:** Network members represent their Health care provider and the Chair represents the region at National meetings where NHS England is a core member of.

Future Direction

- Continue to promote NLCAN and achieve the strategy set by NQICAN
- Continue to build a professional network
- Develop 'mini workshops' within the network that would be beneficial for members.
- Develop an online network of colleagues with whom ideas can be shared when required as this will encourage members to feel that they can email the group with questions they have, outside of meetings.
