

# Network 2015-16 Annual Report

## Regional Network

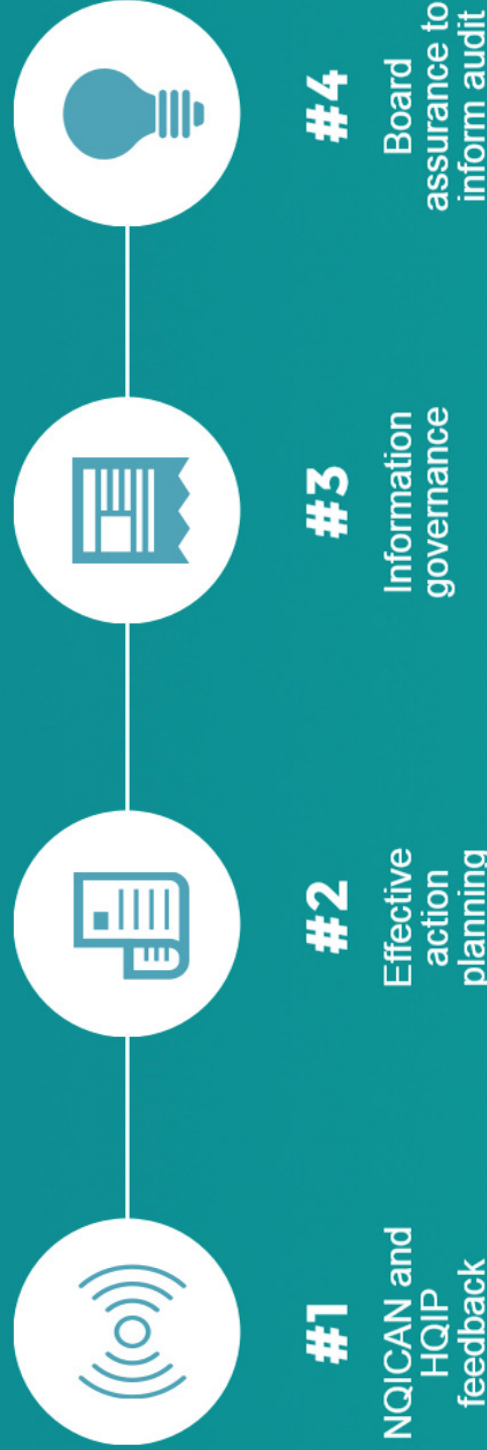

## Network representation

There are 15 regional networks that bring together people with an interest in the development of clinical audit. The majority of our members work in the health sector however we are increasing looking to involve those working in social care. Most of the regional networks have no cost to joining. HQIP provide some funding to support the development of regional network meetings.

## Topics we have covered include...

## In summary...

17 Trusts, across the south central area of England - including acute, mental health and community services, have met approximately 4 monthly to discuss everyday issues in clinical audit and quality improvement. There is active email correspondence between members to support each other to share best practice in the subject area.
