

London Quality Improvement (Inc. Clinical Audit) Network (L-QI-CAN)

Annual Report 2019 20

2019-20 had been a very good year for L-QI-CAN, as there had been very good attendance at the meetings, lots of local collaborations and speakers attending the meetings. One change that was instigated during the year was to provide more time for the membership to actively network. This followed feedback from the group via N-QI-CAN's Network Survey. Networking has now formed part of standing agenda item for the group. This has supported our Clinical Audit and Quality Improvement community to offer each other support, enabled network members to visit each other and review / share local processes and systems.

The Network currently has 125 members from across 47 organisations including Acute Trusts, Mental Health Providers, Community Providers, GP Collaborations, Hospices and the Private Sector. The Network covers a large area and we welcome members from further a field, where it is easier for them to travel into London, rather than a more regional location that might be further away.

The Network had four meets during the year; held on 13th May, 9th September 9th December 2019, and 10th February 2020. During which we welcomed speakers from:-

- The NICE Field Team (London)
- The Clinical Audit Support Centre
- Audit Management and Tracking (AMaT) Company
- NCEPOD
- The Royal College of Physicians

Finances

The Network pays for the use of the Function Room in the 52 Club, Gower Street and this has proved to be a central location for Trust and we have received sponsorship on one occasion in the form of breakfast pastries and sandwiches. All invoices are submitted to N-QI-CAN for approval and any underspend has been rolled over to 2020-21.

Chair

Laila Gregory continues as the Chair and is an active member of N-QI-CAN. From December 2019 she supported N-QI-CAN with active membership of a task & finish group for a national training event and has supported other small review of the group.

Deputy Chair

Alexa Jarvis continues to support L-QI-CAN in minute taking for the group and booking venues.

Looking forward to an online version of the group for the coming months and for the group to continue to support each other collaborating, networking and developing their local systems together

Laila Gregory
Head of Clinical Effectiveness
Chair of the London Quality Improvement (Inc. Clinical Audit) Network

22nd September 2020
